Workplan for Common Origination and Disbursement - Phase II
(Final Version)**

August 2000

COD Phase II Workplan

The workplan for Common Origination and Disbursement Phase II describes the specific approach to identifying a preferred solution. This plan includes the steps necessary to define the individual functional, technical, financial, and vendor criteria. It also includes the steps and schedule for contacting the vendors, developing evaluation criteria, documenting evaluation results, and communicating them to SFA leadership. The workplan is a “living” document and will be updated and maintained regularly throughout the duration of the project.
